

The Town of Porter will resume paving on Wednesday July 13th, weather permitting, in the downtown area bounded by Indiana Street to Lincoln Street (north & south) and Sexton Avenue to Waverly Road (east & west). "No parking" signs will be posted two days prior to the start of milling. Parking will be banned from 7am to 7pm only. One side of each street will be milled at a time so access to homes is always available. The streets will be paved one side at a time 2 to 3 days later generally. Sweeping occurs just prior to paving. No work will be done on Sundays. Additional parking will be available during the day at Town Hall, Hawthorne Park or the Westchester Library. A list of streets in their order of paving will be available at the Town Hall and Public Works buildings; any questions can be directed to Town Hall (926-2771) or Public Works (926-4212). Thank you for your patience and cooperation.
